

1.888.ASK MODOT (275.6636)

Dear

Subject: Fence Removal Notice

This is a fence removal notification for the above referenced project. If you have any fences currently located on the right-of-way or in the easements that you wish to retain, please remove them before .

New permanent fences may be built along the right-of-way provided there are no easements back of the right-of-way line. If it is necessary for you to build a fence where there are easements, you should build around the easements. After our work is completed, the fences around the easements may be moved back to the right-of-way.

Any fence erected on the right-of-way line should be set so that the stake will be on the right-of-way side of the fence line. Stakes must not be destroyed or removed, as they will be used during construction.

Please do not hesitate to call our office if you have any questions concerning this matter. Thank you for your cooperation.

Sincerely,

Resident Engineer
