The MoDOT new product evaluation form shall be used to submit new products to be considered for addition to a department pre-established product list: Construction and Material’s Qualified List (QL), Pre-Acceptance List (PAL), Crashworthy End Terminal Listing (CETL), or the Approved Products List (APL) for Traffic Signals and Highway Lighting Equipment. This form shall also be used to submit new products where no department standard or specification currently exists (new products considered experimental or innovative). A separate form must be completed for each new product submitted. MoDOT may require updates, (re)completion of this form, or further testing to maintain approved status of products.

In an effort to make the New Products Evaluation procedure more efficient and to provide a means of tracking all new submittals, MoDOT has adopted a one-person central contact. All submittals will be sent to the New Products Coordinator, located in the Construction & Materials Division. The New Products Coordinator will be in direct contact with the appropriate divisions for product evaluation.

Upon submittal, the New Products Coordinator will review the completed New Product Evaluation form (NPE) along with accompanying information for MoDOT use. Incomplete NPE forms and/or erroneous information furnished as part of this form will result in the product being rejected for evaluation. The New Products Coordinator will contact those highway authorities and other state agencies, which the vendor reports, as using the product. In performing the initial review, the following will be considered:

1) Does the documentation received indicate that the product will perform as stated?
2) Does a true need exist for the product in MoDOT?
3) Will the product be economically competitive?

This form is used for all products, routine or otherwise. As such, the amount of testing and type of evaluation required for MoDOT approval will depend on many factors and will be determined by the appropriate MoDOT personnel that use similar products. Following the review of the completed New Product Evaluation Form, the New Products Coordinator will consult with pertinent MoDOT Divisions. If MoDOT desires to further evaluate or test this product, MoDOT will determine the methods and needs, then contact the Manufacturer/Supplier with details. The Manufacturer/Supplier may need to supply the product and any special equipment needed to install the product at a MoDOT test site, at no cost to MoDOT. All products submitted for evaluation to MoDOT shall become the property of MoDOT and are not subject to/for return unless otherwise agreed to prior to evaluation. The Manufacturer/Supplier will be encouraged to install the product.

One of the roles of the New Products Coordinator is to track the status of all product submittals. These tracking classifications are important to share with MoDOT personnel so that decisions can be made and those MoDOT personnel are informed of what is being evaluated. Examples of MoDOT New Product Status Classifications:

<table>
<thead>
<tr>
<th>Category</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Proposed:</td>
<td>Recently submitted and under initial review</td>
</tr>
<tr>
<td>Declined:</td>
<td>Declined for further evaluation</td>
</tr>
<tr>
<td>Currently evaluating:</td>
<td>Under evaluation for potential department use</td>
</tr>
<tr>
<td>Approved for use:</td>
<td>Evaluated and approved for department use</td>
</tr>
<tr>
<td>Not approved for use:</td>
<td>Evaluated and rejected for department use</td>
</tr>
</tbody>
</table>

Completed forms shall be submitted to:

Email: npef@modot.mo.gov

Electronic submission preferred

Jefferson City MO 65109
Missouri Department of Transportation
New Product Evaluation Form

The following items (where applicable) must be submitted along with this completed form:

NEW PRODUCTS WILL NOT BE REVIEWED UNTIL ALL INFORMATION IS PROVIDED.

- Product specifications (MoDOT specifications where compliant)
- Certification
- Installation instructions, preferably with pictures or drawings
- Test data
- Material Safety Data Sheet (MSDS)
- Warranty
- Product literature
- Product sample

Note: If product literature exceeds 30 pages, please submit both a digital copy via email and a print copy via mail.

Name of person furnishing information above: ________________________________________________________
Title: __________________________________________________________________________________________
Address: __________________________     City: ___________________     State: _____     Zip: ________
Zip: ______  Phone No.: _____________     Fax: ____________     Email: _______________________

I.  Product Identification
Product Name: ___________________________________________________________________________________
Product Model Number: ___________________________________________________________________________
Product Web Site: _______________________________________________________________________________

II.  Product’s Contact Information
Manufacturer, Source, or Other:
  Manufacturer’s Company Name: ___________________________________________________________________
  Contact Person: ______________________________________________________________________________
  Address: __________________________     City: ___________________     State: _____     Zip: ________
  Phone No.: _____________     Fax: ____________     Email: _______________________

Vendor, Fabricator, Distributor, or Other:
  Representative’s Company Name: ___________________________________________________________________
  Contact Person: ______________________________________________________________________________
  Address: __________________________     City: ___________________     State: _____     Zip: ________
  Phone No.: _____________     Fax: ____________     Email: _______________________

Name of person furnishing information above: ________________________________________________________
Title: __________________________________________________________________________________________
III. Product’s MoDOT Compliance

Does product comply with current MoDOT specifications?  Yes  No

If “Yes,” indicate specification number: ___________________________________________________

If “No,” explain how/why product does not comply: _________________________________________

MoDOT Specifications can be found at:

MoDOT Product Index can be found at:
http://www.modot.org/services/products/index.htm
The product index provides a list of currently approved products for which a specification currently exists and provides a link to the relevant specification.

IV. New Product Description

Product Description: _________________________________________________________________________

Primary Use: _______________________________________________________________________________

Secondary Use: _____________________________________________________________________________

Why should MoDOT consider the product? State its specific benefits or outstanding features:

___________________________________________________________________________________________

Generic Material Composition: _________________________________________________________________

Does product contain Hazardous Materials?  Yes  No  Identify %: _______

If “Yes,” describe: _______________________________________________________________________

Does product contain recycled materials?  Yes  No

If “Yes,” describe: _______________________________________________________________________

Is this product replacing a previously approved product?  Yes  No

If “Yes,” which product: ___________________________________________________________________

Describe the change in the product: ___________________________________________________________________

Will the replaced product remain on the market?  Yes  No

Has this product been submitted previously?  Yes  No

If “Yes,” indicate year of submission: _________________________________________________________

Does product comply with 2 CFR 200.216 “Prohibition on Certain Telecommunications and Video Surveillance Services or Equipment”?  Yes  No
Does the product meet any non-MoDOT specifications?  Yes  No

If “Yes,” provide specification numbers below.

<table>
<thead>

**Roadside Hardware**

Does the product meet MASH criteria?  Yes  No

Does the product have an FHWA Eligibility Letter?  Yes  No

If “Yes,” attach a copy of FHWA letter.

Has product been tested by AASHTO NTPEP (National Transportation Product Evaluation Program)?

*Note: The National Transportation Product Evaluation Program combines the resources of the AASHTO member departments in order to evaluate materials, products and devices of common interest for use in highway and bridge construction. The primary goals of the program are to provide cost-effective evaluations for the state DOTs by eliminating duplication of testing and auditing by the states and duplication of effort by the manufacturers that provide products for evaluation. For more information, see the website at: [http://www.ntpep.org/Pages/default.aspx](http://www.ntpep.org/Pages/default.aspx).*

Yes  No  If “Yes,” indicate test deck or report number: _______________________

Availability: _____________________________  ___ Seasonal  ___ Non-seasonal

Shelf Life: _____________________________  Approximate delivery in days after receipt of order: ___________

Storage Requirements: _____________________________

Are quantities limited?  Yes  No  Describe: _____________________________

Estimated cost per unit at end of evaluation: __________  Estimated cost per unit installed: __________
What percent of the product is made in the USA? ________

Include manufacturer’s certification of Made in the USA or identify foreign manufacturing locations.

Is a warranty provided? If “Yes,” submit copy of warranty. Yes No

Will product be provided at no charge for laboratory or field evaluation? Yes No

If “Yes,” please provide more information in section V.

Can a demonstration by the manufacturer or supplier be provided? Yes No

Is special equipment required to install product? Yes No

If “Yes,” Manufacturer/Supplier will furnish special equipment and install material during testing.

Are educational courses or videos available? Yes No

If “Yes,” list course titles or video link(s) to URLs.

_____________________________________________________________________________________
_____________________________________________________________________________________

Indicate any other individuals within the MoDOT organization that have been contacted about this product:

_____________________________________________________________________________________
_____________________________________________________________________________________

V. Product Demonstration

Has a trial been planned? Yes No

If “Yes,” indicate location and date: ________________________________________________________

Please provide any information on amount of donated material or reduced cost for your product for laboratory or
field evaluation.

_____________________________________________________________________________________

What MoDOT resources are anticipated (such as traffic control or personnel for installation)?

_____________________________________________________________________________________

I certify that the information above is correct (signature): ______________________________________

Name (print): _________________________________________________________________________

Date: ___________________ Phone no.: ___________________ Email: _______________________
